PROMOTING **INDIVIDUAL** ACHIEVEMENT

 
Going for a walk?

?        
Why don't you look for the nature around you? What can

      +  
you find? See what you can find and make your own

  
sensory memory box?

*We all explore the world through our senses!
Through sight, smell, taste, touch and hearing,
though some of us may not have all of them,
we can definitely explore with some of them.*

Sensory Boxes

*Collect items from your walk, make sure to feel them, smell them,
look at them, talk about them. Feel them as you walk and when you get home,
Talk through the walk using the items you have collected to stimulate conversation,
gain a reaction, recall a memory, a smile, a frown, and share in the experience.*

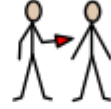

What

can

you

find?

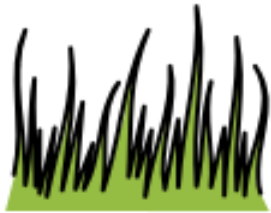

Leaves

Twigs

Stones/Pebbles

Grass

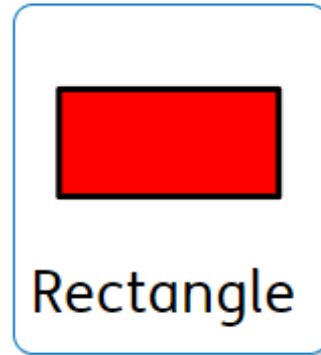

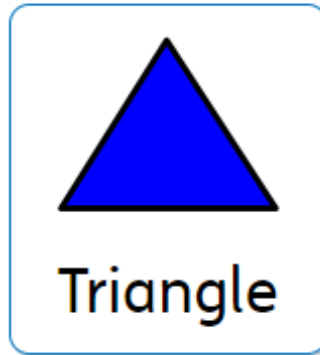

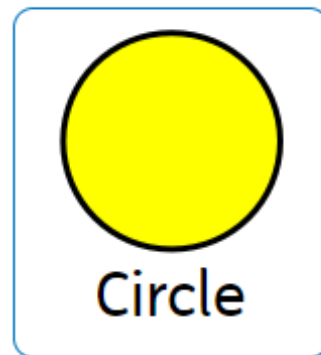

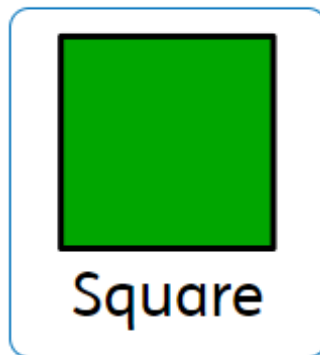

Flowers

Pine cones

What shapes and colours can you see?

Can you find more?

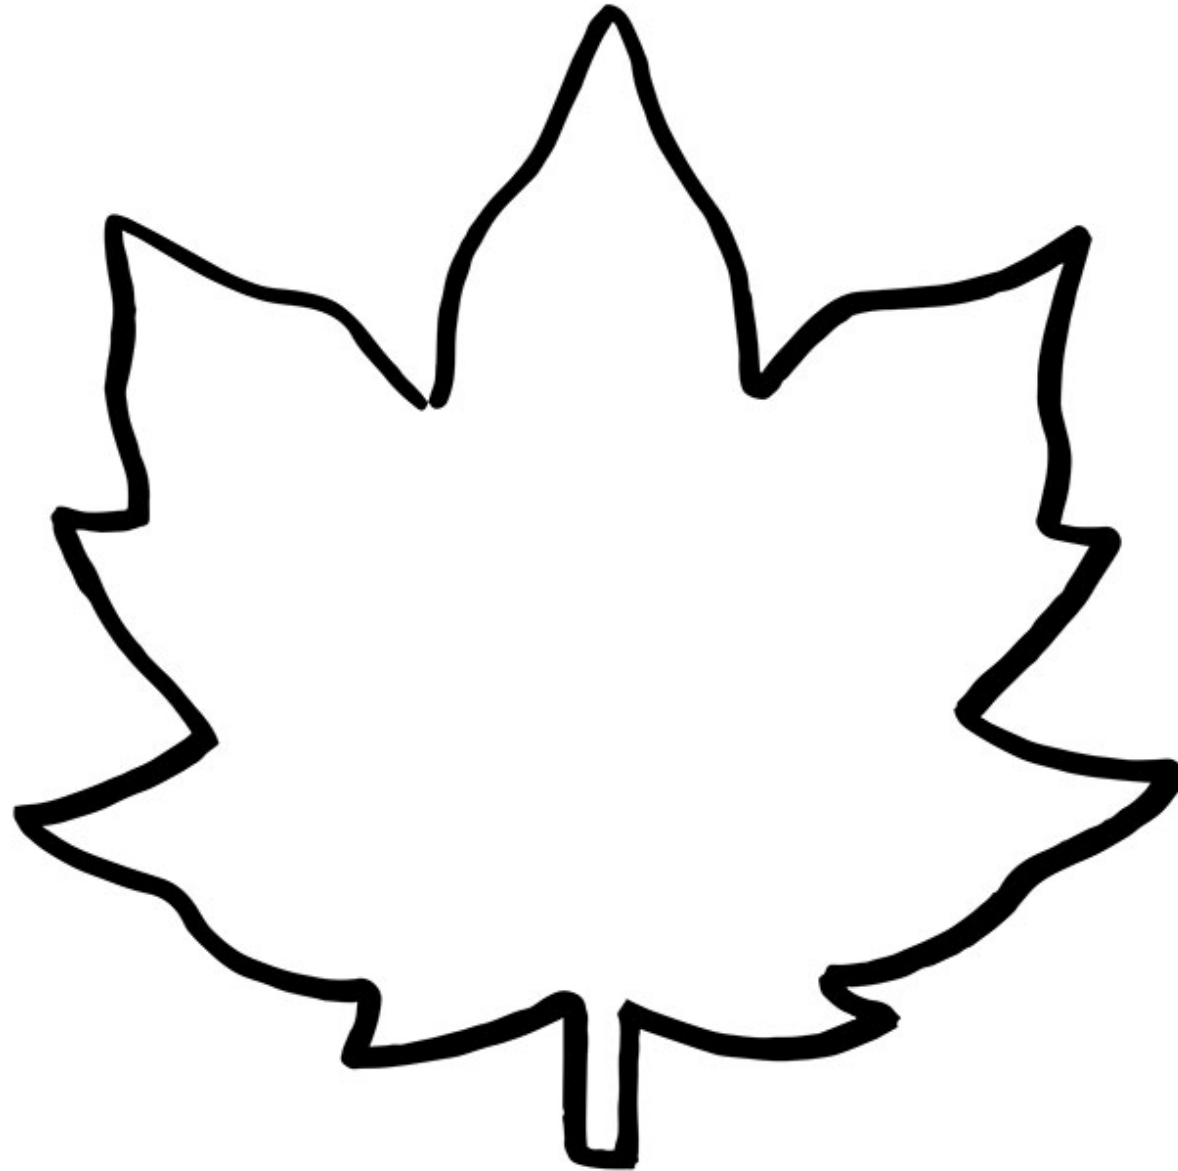

What are they?

Creative Ideas

Why not colour me in of
cut me out?
