

Statement for use of 16-19 tuition fund

In line with Government guidance, we are publishing this statement to demonstrate how additional funding for 16 to 19-year-old students (or 16 – 24 for those with an EHCP) will be utilised in the 2020-21 funding year.

The additional funding made available to the College will be used to provide support small group tuition for specific cohorts of 16 to 24 students in English, maths, and other courses where learning has been disrupted, for example within vocational courses where disruption has occurred because of lockdown.

Eligible students will be those identified by the Government as disadvantaged, meaning those who had not achieved grade 4 or above in at least one of English and/or maths at this level by age 16. All will be on a 16 to 19 study programme. The subjects covered in the tuition will not be limited to English and maths but will be identified according to need and existing programme.

We intend to utilise the funding to prioritise these students and provide additional support to small groups of them (between 3-5 per group in the majority of cases) who have been assessed by staff as requiring the intervention in order to 'catch-up' following the disruption to their programmes.

Each student will be timetabled for their intervention following an assessment, and this will be recorded using College systems and costed according to need and the requirement for specialist/additional staffing and resources.
