

# Certificate in Falls Prevention Awareness

## Level 2

### Who is the course for?

Aimed at anyone working in a health or social care environment, particularly those who support, or have contact with, older people who are prone to falls. It will also be useful to individuals who support family members or friends who are at risk of falling.

### What are the benefits of doing this course?

Learners will gain a thorough understanding of the common causes of falls and the risk factors, both personal and environmental, that increase the likelihood of falls. Candidates will also learn about numerous interventions that they and/or care organisations take to prevent falls.

### Course content

The Level 2 Certificate in Falls Prevention Awareness comprises four units across two module workbooks as follows:

- ▶ Falls in context
- ▶ The risk factors and causes of falls
- ▶ Falls assessment and prevention
- ▶ Managing falls

## Progression opportunities

By undertaking this programme, candidates will be able to further their own continuous professional development, which may improve their career prospects.

## Course delivery and assessment

The programme enables learners to complete the course in their own time, and all study material and resources are provided. Learners have access to a tutor and the programme is marked based on modular assessment. There is also the opportunity to work through a series of reflective activities designed to reinforce the learning.

## Entry requirements

Learners should be aged 16 and over but otherwise there are no specific entry requirements for this programme.
